SUMMARY

Staff Engineer with 5+ years of experience designing, building, and scaling enterprise systems. Strong background in C#, .NET, AWS, Azure Pipelines, data pipelines, automation, and backend architecture. Built production-grade AI automation platforms using n8n, Airtable, and cloud integrations.

EXPERIENCE

Staff Engineer I (Software Engineer III)

AmeriHome Mortgage — July 2022 – Present | Thousand Oaks, CA
• Led the development and maintenance of complex data pipelines, ensuring efficient data extraction, transformation, and loading (ETL) processes.
• Designed and implemented data modeling solutions, optimizing database schema for performance and scalability.
• Collaborated with data scientists and analysts to translate business requirements into technical specifications and deliver actionable insights.
• Implemented data quality checks and monitoring systems to ensure data accuracy and integrity.
• Primarily utilizing C#, .NET, MongoDB, AWS, TeamCity, Octopus, Microsoft SQL, and commercially available .NET-compatible software components to complete software development tasks.

Software Engineer

Rico Technologies — May 2020 – Jan 2022 | Thousand Oaks, CA
• Designed and programmed C# applications that integrate data from one application to another using REST APIs for platforms such as Magento and Shopify.
• Built full-stack applications using Node.js, Vue.js, C#, and Microsoft SQL according to business needs.
• Collaborated with clients to design and accelerate e-commerce systems.
• Completed development tasks under direction of senior engineering leadership.
• Utilized C#, .NET, CSS, JavaScript, HTML, XML/XSL, SQL Server, and related components.
• Documented code per company standards and tracked billable/non-billable time accurately.

Full-Stack / Web Design Intern

NovaStor — Mar 2020 – May 2020 | Thousand Oaks, CA
• Utilized PHP, HTML, CSS, and MVC design patterns to develop websites from scratch.
• Assisted Technical Director with development tasks.

SELECTED PROJECT WORK

AI Automation Platforms (ContentDripAI, Candid AI, EverContent AI)

• Built large-scale n8n automation pipelines for video generation, content repurposing, and scheduled social distribution.
• Integrated GPT models, ElevenLabs, Shotstack, HeyGen, FFmpeg, Airtable, and Base44 to create fully automated AI workflows.

EDUCATION

B.S. in Computer Science, California Lutheran University — 2021 (GPA 3.9)

SKILLS

Languages: C#, JavaScript, Node.js, Vue.js, Java, SQL, HTML/CSS
Technologies: .NET, AWS, Azure Pipelines, MongoDB, SQL Server, TeamCity, Octopus, n8n, Airtable, FFmpeg, Shotstack, REST APIs
